

Project Demo Planning

Date	2 July 2026
Team ID	SWTID-2026-4993
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the team and explain the project objective	1	Bhavana
2	Problem Statement	Explain the agricultural problem and why the project is needed	1	Vishnu chandu
3	Data Preprocessing	Explain dataset collection, cleaning, and preprocessing	1	Harshitha
4	Model Building	Explain the machine learning model and prediction process	1	Rajasri
5	Application Demo	Demonstrate the web application and crop prediction	1	Geethanjali

Demo Flow Summary:

Steps	Activity Notes	Notes
1	Introduction & Problem Statement	Introduction & Problem Statement – Introduce the project and explain the problem faced by farmers.
2	Solution Overview	Solution Overview – Explain the dataset, preprocessing, machine learning model, and application.
3	Live Feature Demonstration	Live Feature Demonstration – Show the application, enter sample inputs, and display the predicted crop.
4	Q&A Session	Q&A Session – Answer the questions from the evaluators and conclude the presentation.
